# What We Do

---

Stratford-Perth Pride provides year-round LGBTQ2S+ programming to make Perth County a more welcoming, accepting and inclusive community for gender and sexually diverse individuals.

## Events

We plan year-round events such as marches, drag nights, education events, flag raisings, family and youth events, and much more.

## Projects

We work with community partners on various projects to support the queer community. These projects include crosswalks, banners, and more.

## Education

Through webinars, workshops, our social media and other means, we educate Perth County on gender and sexual diversity.

## Resources & Supports

We curate a web page with queer/trans supports.

We also work with community partners to create and expand queer-responsive social and health services in Perth County.
